

OPÔLIA

Sink & Faucet Catalogue

SINK

Where pots, bowls, ladles, and basins clatter,
Ingredients collide in a lively symphony,
Splashing water in exuberant display,
Only then can true praise for deliciousness emanate from the heart,
Sink, Interpreting a life of purity.

PS932C

Product Specifications

Main material: SUS304
 Product Size (H*W*D mm): 860*470*215
 Surface treatment: PVD + Nano
 Hole size above counter basin: 840 * 450 *R10
 Hole size below counter basin: 838 * 445 *R19
 Package configuration: ST1505+X047C+DS615+DS614+DS606+CB604+SF03

Functional Selling Points

- 1.Paired with button style FeiYu Series faucet
- 2.Handmade welding molding, large single sink design, good effect appearance
- 3.Double layered step structure, can be paired with multifunctional accessories
- 4.Embedded cup washer, convenient to use, elegant and beautiful;
- 5.Nano surface treatment, anti fouling and anti rust;
- 6.Anti condensation coating, effectively reducing moisture and protecting cabinets;
- 7.Equipped with a rear drainage system, the cabinet can utilize more space.

PS930C

Product Specifications

Main material: SUS304
 Product Size (H*W*D mm): 760*470*200
 Surface treatment: PVD + Nano
 Hole size above counter basin: 740 * 450 *R15
 Hole size below counter basin: 720 * 445 *R23
 Package configuration: ST1504+X047-1+DS609+DS612+DS606+CB604+SF03

Functional Selling Points

- 1.Can be paired with FeiYu Series faucet;
- 2.The basin and gallbladder are integrated by stretching and forming, welded with thick panels for long-lasting durability;
- 3.High and low step structure, can be paired with multifunctional accessories;
- 4.Nano surface treatment, anti fouling and anti rust;
- 5.Anti condensation coating, effectively reducing moisture and protecting cabinets;
- 6.Equipped with a rear drainage system, the cabinet can utilize more space.

PS931C

Product Specifications

Main material: SUS304
 Product Size (H*W*D mm): 820*470*205
 Surface treatment: PVD + Nano
 Hole size above counter basin: 800*450*R10
 Hole size below counter basin: 770*437*R10
 Package configuration: ST1504+X047-1+DS609+DS612+DS606+CB604+SF03

Functional Selling Points

- 1.Can be paired with FeiYu Series faucet;
- 2.Handmade welding molding, large single sink design, good effect appearance
- 3.Double layered step structure, can be paired with multifunctional accessories
- 4.Nano surface treatment, anti fouling and anti rust;
- 5.Anti condensation coating, effectively reducing moisture and protecting cabinets;
- 6.Equipped with a rear drainage system, the cabinet can utilize more space.

PS918C

Product Specifications

Main material: SUS304
 Product Size (H*W*D mm): 760*440*200
 Surface treatment: PVD + Nano
 Hole size above counter basin: 740*440*R10
 Hole size below counter basin: 714*390*R10
 Package configuration: ST1506+X050+SF03+DS613+CB606

Functional Selling Points

1. Handmade welding molding, large single sink design, good effect appearance
2. Step structure, can be paired with multifunctional accessories;
3. Anti condensation coating, effectively reducing moisture and protecting cabinets;
4. Nano surface treatment, anti fouling and anti rust;
5. Equipped with a super large caliber drain, it provides faster drainage.

PS617C-1

Product Specifications

Main material: SUS304
 Product Size (H*W*D mm): 820*470*200
 Surface treatment: Nano
 Hole size above counter basin: 800*450*R15
 Hole size below counter basin: 784*434*R20
 Package configuration: ST1106+X505+DS607+DS608+SF03+CB605

Functional Selling Points

1. SUS304 integrated stretching, 3D large single slot saves space, classic and practical;
2. Nano coating surface, anti fouling and anti rust;
3. Super quiet effect, eliminating underwater noise without a trace;
4. Equipped with a super large caliber drain for faster drainage;
5. It can be paired with a variety of sink accessories, with rich functions.

PS617C

Product Specifications

Main material: SUS304
 Product Size (H*W*D mm): 820*470*200
 Surface treatment: Nano
 Hole size above counter basin: 800*450*R15
 Hole size below counter basin: 784*434*R20
 Package configuration: ST1306+X047+DS607+DS608+SF03+CB605

Functional Selling Points

1. SUS304 integrated stretching, 3D large single slot saves space, classic and practical;
2. Nano coating surface, anti fouling and anti rust;
3. Super quiet effect, eliminating underwater noise without a trace;
4. Equipped with a rear drainage system, the cabinet can utilize a larger space;
5. It can be paired with a variety of sink accessories, with rich functions.

GR907

Product Specifications

Main material: Quartz
 Product Size (H*W*D mm): 762*436*218
 Surface treatment: /
 Hole size above counter basin: /
 Hole size below counter basin: /
 Package configuration: ST1506+X047C+DS613+CB606+SF03

Functional Selling Points

1. Seamless splicing tabletop connection process;
2. Single step structure, can be paired with functional accessories such as cutting boards and sliding pots;
3. Made of top-quality quartz material, with a dense structure and soft texture;
4. Healthy and environmentally friendly without radiation, injecting new vitality into the kitchen;
5. Excellent performance, with strong temperature resistance, high temperature resistance, corrosion resistance, and impact resistance;
6. Equipped with a rear drainage system, the cabinet can utilize more space.

GR906J-1

Product Specifications

Main material: Quartz
 Product Size (H*W*D mm): 780*425*237
 Surface treatment: /
 Hole size above counter basin: /
 Hole size below counter basin: /
 Package configuration: ST1413+X047C+SF03

Functional Selling Points

1. Seamless splicing tabletop connection process;
2. Made of top-notch quartz material, with a dense structure and soft texture;
3. Healthy and environmentally friendly without radiation, injecting new vitality into the kitchen;
4. Excellent performance, with strong temperature resistance, high temperature resistance, corrosion resistance, and impact resistance;
5. Equipped with a rear drainage system, the cabinet can utilize more space

GR973

Product Specifications

Main material: Quartz
 Product Size (H*W*D mm): 760*470*208
 Surface treatment: /
 Hole size above counter basin:740*450*R10
 Hole size below counter basin: 708*435*R18
 Package configuration: ST1111+X047+DS606+CB604+SF03

Functional Selling Points

1. Made of top-grade quartz material, with a dense structure and soft texture;
2. Healthy and environmentally friendly without radiation, with diverse colors, injecting new vitality into the kitchen;
3. Excellent performance, with strong temperature resistance, high temperature resistance, corrosion resistance, and impact resistance;
4. Equipped with a rear drainage system, the cabinet can utilize more space;
5. The high and low step structure can be paired with functional accessories such as cutting boards and sliding basins.

PS311A

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 440*190
Surface treatment: Wire drawing
Hole size above counter basin: 410
Hole size below counter basin: 404
Package configuration: ST1001A+X037A+X060

Functional Selling Points

1. One-piece stretching, pragmatism;
2. Mercerization treatment, providing delicate and noble appearance;
3. Simple design, showing personality and fashion

PS631

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 620*427*205
Surface treatment: Wire drawing
Hole size above counter basin: /
Hole size below counter basin: 570*377*R15
Package configuration: ST1306+X037A

Functional Selling Points

1. One piece stretching with SUS304 and classic single sink design;
2. Small rounded corners providing more space, high-end appearance, not easy to hide dirt, easy to clean;
3. Mercerization treatment, providing delicate and noble appearance;
4. Only support under-the-counter installation;

PS633C

Product Specifications

Product Specifications
Main material: SUS304
Product Size (H*W*D mm): 760*470*200
Surface treatment: Nano
Hole size above counter basin: 740*450*R15
Hole size below counter basin: 720*445*R23
Package configuration: ST1411+X047+DS612+DS605+CB604+SF03

Functional Selling Points

1. The basin and gallbladder are integrated by stretching and forming, welded with thick panels for long-lasting durability;
2. High and low step structure, can be paired with multifunctional accessories;
3. Nano surface treatment, anti fouling and anti rust;
4. Anti condensation coating, effectively reducing moisture and protecting cabinets;
5. Equipped with a rear drainage system, the cabinet can utilize more space

PS6303C

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 820*470*210
Surface treatment: Nano
Hole size above counter basin: 800*450*R15
Hole size below counter basin: 760*445*R20
Package configuration: ST1411+X048C+DS605+CB604+SF03

Functional Selling Points

1. The basin and gallbladder are integrated by stretching and forming, welded with thick panels for long-lasting durability;
2. The basin and gallbladder step structure can be paired with accessories such as drainage baskets and cutting boards;
3. Nano surface treatment, anti fouling and anti rust;
4. Anti condensation coating, effectively reducing moisture and protecting cabinets;
5. Equipped with a rear drainage system, the cabinet can utilize more space

PS615C

Product Specifications

Product Specifications
Main material: SUS304
Product Size (H*W*D mm): 760*470*200
Surface treatment: Nano
Hole size above counter basin: 740*450*R20
Hole size below counter basin: 727*437*R15
Package configuration: ST1105+X037A+SF03

Functional Selling Points

1. SUS304 integrated stretching, with good load-bearing performance;
2. Nano coating surface, anti fouling and anti rust;
3. Exquisite small slanted edge design, stronger three-dimensional sense;
4. Anti condensation coating, effectively reducing moisture and protecting cabinets;
5. Practical single slot design.

PS6221C-2

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 760*470*200
Surface treatment: Nano
Hole size above counter basin: 745*455*R20
Hole size below counter basin: 720*430*R30
Package configuration: ST1105+X039A+SF03

Functional Selling Points

1. SUS304 integrated stretching, with good load-bearing performance;
2. Nano surface treatment, anti fouling and anti rust;
3. Anti condensation coating, effectively reducing moisture and protecting cabinets;
4. Classic size slot design, reasonable washing partition, practical

PS615A-1

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 760*470*200
Surface treatment: Wire drawing
Hole size above counter basin: 740*450*R20
Hole size below counter basin: 727*437*R15
Package configuration: ST1110+X047+DP17A

Functional Selling Points

1. SUS304 integrated stretching, mercerized treatment, delicate and noble;
2. Exquisite small slanted edge design, stronger three-dimensional sense;
3. Anti condensation coating effectively reduces moisture and protects cabinets
4. Equipped with a rear drainage system, the cabinet can utilize more space.

PS612C

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 760*470*210
Surface treatment: Nano
Hole size above counter basin: 740*450*R20
Hole size below counter basin: 720*430*R20
Package configuration: ST1306-1+X047+DS601

Functional Selling Points

1. SUS304 integrated stretching, simple and large single slot classic and practical;
2. Nano coating surface, anti fouling and anti rust;
3. Super quiet effect, eliminating underwater noise without a trace;
4. Equipped with a rear drainage system, the cabinet can utilize more space.

PS9110C

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 820*450*200
Surface treatment: Nano
Hole size above counter basin: /
Hole size below counter basin: 795*425*R23
Package configuration: ST1111*X039A+SF03

Functional Selling Points

1. Hand welded and formed, with a square and atmospheric appearance
2. Classic size slot design, practical and beautiful;
3. Only supports offline installation;
4. Nano surface treatment, anti fouling and anti rust.

PS9601C

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 720*440*200
Surface treatment: Nano
Hole size above counter basin: /
Hole size below counter basin: 670*400*R10
Package configuration: ST1111*X037A+SF03

Functional Selling Points

1. Hand welded and formed, with a square and atmospheric appearance;
2. Only supports offline installation;
3. Anti condensation coating, effectively reducing moisture and protecting cabinets;
4. Nano surface treatment, anti fouling and anti rust;
5. Offset the drain hole to save cabinet space.

PS972XC Dry Kitchen

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 550*320*200
Surface treatment: PVD+Nano
Hole size above counter basin: 530*300*R10
Hole size below counter basin: 520*290*R20
Package configuration: ST1701+X037A+DS611

Functional Selling Points

1. Hand welded and formed, SUS304 material;
2. Nano surface treatment, anti fouling and anti rust;
3. Anti condensation coating, effectively reducing moisture and protecting cabinets;
4. Matched sideboards and Western kitchens;
5. Paired with a cup washer.

GR971XC Dry Kitchen

Product Specifications

Main material: Quartz
Product Size (H*W*D mm): 450*300*210
Surface treatment: /
Hole size above counter basin: 430*280*R10
Hole size below counter basin: 400*250*R10
Package configuration: ST1308+X037C

Functional Selling Points

1. Made of top-grade quartz material, with a dense structure and soft texture;
2. Healthy and environmentally friendly without radiation, injecting new vitality into the kitchen;
3. Excellent performance, with strong resistance to temperature difference, high temperature, corrosion, and impact;

PS915C

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 760*470*200
Surface treatment: Nano
Hole size above counter basin: 730*440*R10
Hole size below counter basin: 730*440*R20
Package configuration: ST1506+X047+DS901+SF03

Functional Selling Points

1. Handmade welding molding, large single groove design, good effect appearance;
2. Gun gray PVD treatment, high-end texture;
3. High strength nano coating;
4. 3mm thick panel, sturdy and not deformed;
5. Equipped with a rear drainage system, the cabinet can utilize more space;
6. Offset the drain hole to save cabinet space.

PS9221C

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 860*470*200
Surface treatment: Nano
Hole size above counter basin: 830*440*R10
Hole size below counter basin: 830*440*R20
Package configuration: ST1506+X048+DS901+SF03

Functional Selling Points

1. Handmade welding molding, large single groove design, good effect appearance;
2. Gun gray PVD treatment, high-end texture;
3. High strength nano coating;
4. 3mm thick panel, sturdy and not deformed;
5. Equipped with a rear drainage system, the cabinet can utilize more space.

FAUCET

Curved or straight, slow or swift,
The leaping water,
Manifests myriad transformations,
Turning moments into a gentle sea,
Faucet, Crafted with artisanal quality,
Interpreting kitchen aesthetics akin to works of art.

Five water outlet modes, indulge in cleaning pleasures

Easily tackle various cleaning challenges, with a clean and ceremonial washing experience.

Cup Washer

Spray Mode

Stream Mode

Double Sweep Mode

Waterfall Shower Mode

Pull-out faucet

Easily wash every corner
Switch at will to meet your different washing needs

Faucet **ST1001A**

Product Specifications

Main material: SUS304
 Product Size (H*W*D mm): 50*237*381
 Surface treatment: Wire drawing

Functional Selling Points

1. SUS304 material manufacturing, environmentally friendly and healthy;
2. Simple and practical appearance;
3. Standard configuration of well-known brand valve core

Faucet **ST1105**

Product Specifications

Main material: SUS304
 Product Size (H*W*D mm): 57*261*430
 Surface treatment: Wire drawing

Functional Selling Points

1. SUS304 material manufacturing, environmentally friendly and healthy;
2. Equipped with internationally renowned brand valve cores as standard;
3. Pull the faucet for more convenient cleaning;
4. Dual mode water outlet, Matched various usage scenarios;
5. Stainless steel brushed surface, timeless and timeless

Faucet **ST1106**

Product Specifications

Main material: SUS304
 Product Size (H*W*D mm): 52*257*470
 Surface treatment: Wire drawing

Functional Selling Points

1. SUS304 material manufacturing, environmentally friendly and healthy;
2. Equipped with internationally renowned brand valve cores as standard;
3. Pull the faucet for more convenient cleaning;
4. Dual mode water outlet, Matched various usage scenarios;
5. Stainless steel brushed surface, timeless and timeless

Faucet **ST1111**

Product Specifications

Main material: SUS304
 Product Size (H*W*D mm): 52*273*403
 Surface treatment: Grey

Functional Selling Points

1. SUS304 material manufacturing, environmentally friendly and healthy;
2. Equipped with internationally renowned brand valve cores as standard;
3. Pull the faucet for more convenient cleaning;
4. Dual mode water outlet, Matched various usage scenarios;
5. Good Effect

Faucet **ST1412**

Product Specifications

Main material: Low lead copper
 Product Size (H*W*D mm): 55*233*412
 Surface treatment: Grey

Functional Selling Points

1. Low lead copper material manufacturing, environmentally friendly and healthy;
2. Equipped with internationally renowned brand valve cores as standard;
3. Split type pull-out faucet, convenient to use.

Faucet **ST1413**

Product Specifications

Main material: Low lead copper+Zinc alloy
 Product Size (H*W*D mm): 52*279*445
 Surface treatment: Dark

Functional Selling Points

1. Low lead copper water permeable parts, environmentally friendly and healthy;
2. Dual mode water outlet, Matched more applicable scenarios;
3. Equipped with internationally renowned brand valve cores as standard;
4. The faucet can be pulled for more convenient cleaning.

Faucet **ST1504**

Product Specifications

Main material: SUS304
 Product Size (H*W*D mm): 240*268*423
 Surface treatment: Grey

Functional Selling Points

1. SUS304 material manufacturing, environmentally friendly and healthy;
2. Standard configuration of well-known brand valve cores;
3. High discharge pipe, novel and fashionable;
4. The faucet can be pulled for more convenient use.
5. Four modes of water discharge, Matched different living scenarios.

Faucet **ST1505**

Product Specifications

Main material: SUS304
 Product Size (H*W*D mm): 300*277*429
 Surface treatment: Grey

Functional Selling Points

1. SUS304 material manufacturing, environmentally friendly and healthy;
2. Standard configuration of well-known brand valve cores;
3. High discharge pipe, novel and fashionable;
4. The faucet can be pulled for more convenient use.
5. Four modes of water discharge, Matched different living scenarios;
6. The piano button switches to water mode, which is convenient and fast.

Faucet **ST1306-1**

Product Specifications

Main material: SUS304
 Product Size (H*W*D mm): 50*245*490
 Surface treatment: Wire drawing

Functional Selling Points

1. SUS304 material manufacturing, environmentally friendly and healthy;
2. Standard configuration of well-known brand valve cores;
3. Stainless steel wire drawing surface, timeless and timeless;
4. The hose outlet pipe makes cleaning more convenient.

Faucet **ST1305-1**

Product Specifications

Main material: Low lead copper
 Product Size (H*W*D mm): 50*250*477
 Surface treatment: Black+Red

Functional Selling Points

1. Low lead copper material manufacturing, environmentally friendly and healthy;
2. Equipped with internationally renowned brand valve cores as standard;
3. High throw appearance, novel and fashionable;
4. The faucet can be pulled for more convenient use.

Faucet **ST1306**

Product Specifications

Main material: Low lead copper+Zinc alloy
 Product Size (H*W*D mm): 54*246*420
 Surface treatment: Chromium plating

Functional Selling Points

1. Low lead copper material manufacturing, environmentally friendly and healthy;
2. Equipped with internationally renowned brand valve cores as standard;
3. The hose outlet pipe makes cleaning more convenient.

Faucet **ST1411**

Product Specifications

Main material: Low lead copper
 Product Size (H*W*D mm): 55*248*535
 Surface treatment: Grey

Functional Selling Points

1. Low lead copper material manufacturing, environmentally friendly and healthy;
2. Equipped with internationally renowned brand valve cores as standard;
3. The hose outlet pipe makes cleaning more convenient.
4. Dual mode water outlet, Matched various usage scenarios;

Faucet **ST1506**

Product Specifications

Main material: SUS304
 Product Size (H*W*D mm): 52*260*445
 Surface treatment: Grey

Functional Selling Points

1. SUS304 material manufacturing, environmentally friendly and healthy;
2. The faucet can be pulled and cleaned conveniently;
3. Three mode water outlet, Matched more life scenes;
4. Touch switch water, intelligent and humanized, high-end and fashionable;
5. Equipped with internationally renowned brand valve cores as standard.

Dry Kitchen **ST1308**

Product Specifications

Main material: Low lead copper+Zinc alloy
 Product Size (H*W*D mm): 51*193*186
 Surface treatment: Black

Functional Selling Points

1. Low lead copper water permeable parts;
2. Can pull the faucet, making cleaning more convenient;
3. Dual mode water outlet, Matched various usage scenarios.

Dry Kitchen **ST1701**

Product Specifications

Main material: Low lead copper
 Product Size (H*W*D mm): 50*185*175
 Surface treatment: Matt Black

Functional Selling Points

1. Low lead copper material manufacturing, environmentally friendly and healthy;
2. Runway shaped handle appearance, overall minimalist design;
3. Equipped with internationally renowned brand valve cores as standard, with an ultra long service life of valve cores;
4. Matte black surface, high-end and fashionable
